

Galectin Therapeutics to Participate in the H.C. Wainwright MASH Conference

09/30/24

NORCROSS, Ga., Sept. 30, 2024 (GLOBE NEWSWIRE) -- [Galectin Therapeutics, Inc.](#) (NASDAQ: GALT), the leading developer of therapeutics that target galectin proteins, today announced that Joel Lewis, Chief Executive Officer and Khurram Jamil, M.D., Chief Medical Officer, will be attending the H.C. Wainwright MASH Investor Conference being held October 7, 2024.

Dr. Jamil will be sharing the latest updates on clinical programs and pipeline advancement on October 7, 2024 at 10:00 AM ET. The webcast of the presentation can be accessed [here](#) or through the Company's website on the [Events & Presentation](#) page of the investors section.

About Galectin Therapeutics

Galectin Therapeutics is dedicated to developing novel therapies to improve the lives of patients with chronic liver disease and cancer. Galectin's lead drug belapectin is a carbohydrate-based drug that inhibits the galectin-3 protein, which is directly involved in multiple inflammatory, fibrotic, and malignant diseases, for which it has Fast Track designation by the U.S. Food and Drug Administration. The lead development program is in metabolic dysfunction-associated steatohepatitis (MASH, formerly known as nonalcoholic steatohepatitis, or NASH) with cirrhosis, the most advanced form of MASH-related fibrosis. Liver cirrhosis is one of the most pressing medical needs and a significant drug development opportunity. Additional development programs are in treatment of combination immunotherapy for advanced head and neck cancers and other malignancies. Advancement of these additional clinical programs is largely dependent on finding a suitable partner. Galectin seeks to leverage extensive scientific and development expertise as well as established relationships with external sources to achieve cost-effective and efficient development. Additional information is available at www.galectintherapeutics.com.
